

Best Doctor

The providers and staff at Cedar Park Pediatric & Family Medicine congratulate Dr. Cameron T. King on holding the "Best Doctor" title for two years in a row in the Hill Country News Best of the Best.

Dr. King and the providers and staff at Cedar Park Pediatric & Family Medicine are coming up on 10 years of being an integral part of health and wellness for the Cedar Park community. In 2005, Dr. King and Dr. Brent Cardwell saw the need for a medical home that could serve the entire family in one location - that vision began at their first clinic located at 345 Cypress Creek Rd. at the intersection of 183 and Cypress Creek Rd. Now, almost 10 years later, the team has grown to 7 board certified providers in pediatric medicine, 4 board certified providers in family medicine and a second location at 920 Vista Ridge Blvd. at the corner of 1431 and Vista Ridge. The group announced plans to move its Vista Ridge clinic in early 2016, after building a brand new location at the corridor of 1431 and Ronald Reagan Blvd.

As the city of Cedar Park has grown rapidly over the last few years, accessibility for patients has become a key to optimal patient care. The clinics offer a wide range of availability with same day appointments, 24/7 after-hours calls, Saturday hours and walk-in urgent care.

With a focus on keeping the Cedar Park community active and healthy, patients can count on comprehensive care in sick and well visits. Annual wellness exams, immunization management, preventive care and chronic care are just a few of the services

Cedar Park Pediatric & Family Medicine provides in partnering with patients in health and healing. Providing patient education such as parenting classes, outreach in the community, research-based online articles and monthly meet & greets also plays a part in empowering patients to live fulfilling and active lives.

An Annual Wellness Visit is a great place to start in developing a trusted relationship with a primary care provider. Most insurance companies pay in full for a well woman exam or annual wellness visit. When your provider has access to your health history and state of wellness they can be more effective in treating illness and getting you back to feeling better, faster.

Dr. King's team includes Family Medicine Nurse Practitioner, Ashley Hollister, FNP-C, Physician Assistant, Ashley Mott, PA-C, and most recently joining the group is Meredith Long, FNP-C. All family medicine and pediatric providers are accepting new patients, and appointments are available at both the Cypress Creek and Vista Ridge clinics.

Cameron T. King, MD attended the University of Kansas and the University of Kansas, School of Medicine. He then completed his family practice residency at the University of Tennessee Medical Center. He has practiced in the Austin and Cedar Park area since 2001. Dr. King and his wife, Debbie, have three children, Isabelle, Anwen and Emilia. Dr. King's interests include family activities, physical fitness, boating, wakeboarding and hydrofoiling.
